

## Backer Gate Kits

You can purchase the same backer gate (over clamp) kit that is used on our RNS fixtures.

These kits are made of the same quality materials and to the same specifications as those we use for our customers.

Each gate kit is designed to fit one or more specific sized kits. Since the components vary from kit to kit, each is listed separately.

### GK420UN

This gate is designed for the Genrad or Teradyne fixture kits FKGR1620 or FKGR2030C and provides a UUT area of 15" x 9.75".

**The kit includes:**
